# KOGA SANS

a Humanist Sans-Serif Typeface,  
 Designed by Masaki ANDO.  
 «prototype»

KOGA Sans is friendly, gallant and humorous sans serif. ¶ The concept of Koga Sans is dogs and wolves. The sources of Koga Sans are upturned tails of handwriting, Roman capitals and angled terminals of calligraphic nibs. These features give humor and closeness. What does "Koga" mean? In Japanese, ko means light and ga means fang. Additionally, I designed/designing 9 weights, italics and some stylistic sets to express your emotions. ¶ So you will typeset letters like playing with dog.
